STARFISH

LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty

members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT.

USE OF ARTIFICIAL INTELLIGENCE (AI) IN THE COURSE

Lamar Institute of Technology (LIT) recognizes the recent advances in Artificial Intelligence (AI). The use of generative AI tools, such as ChatGPT, is permitted in this course only in a limited capacity. Students may not use AI to create speeches, assignments, or any original content that is required for grading. The development of ideas, research, arguments, and speech drafts must be the student's own work.

AI may only be used as a supplemental tool to refine material that has already been written by the student. Acceptable uses include checking grammar and spelling, ensuring clarity and cohesion, and assisting with the organization of outlines. For example, it is not acceptable to ask an AI tool to "create a 5–7-minute informative speech on World War II." However, it is acceptable to paste a draft the student has written into an AI tool and request a review of grammar or flow.

Whenever an AI tool is used, students are required to disclose this use within their assignment by including the following statement:

"For this assignment's preparation, the author(s) utilized [Generative AI Tool Name], a language model created by [Generative AI Tool Provider]. Within this assignment, the tool was used only for [e.g., grammar correction, minor phrasing adjustments, or organizational support]."

Failure to properly acknowledge the use of AI tools or relying on them beyond the limits described above will be considered a violation of academic integrity and may result in penalties in accordance with the LIT policy.
