Hazard Mitigation and Debris Management (EMAP 1345)

Credit: 3 semester credit hours (3 hours lecture)

Prerequisite/Co-requisite: None.

Course Description
Hazard mitigation process and available methodologies which, when applied, will contribute to reducing the vulnerability of a jurisdiction. Include an in-depth study of potential funding mechanisms including the Hazard Mitigation Grant Program.

Required Textbook and Materials
2. All students must register with FEMA and obtain a Student Identification Number (SID); [https://cdp.dhs.gov/femasid/register](https://cdp.dhs.gov/femasid/register)

Course Objectives
Upon completion of this course, the student will be able to:
1. Describe hazard mitigation.
2. Identify the various methods that reduce the vulnerability of a jurisdiction.
3. Identify the potential funding mechanisms available to the emergency manager.
4. Explain the importance of grant funding to emergency management.

Course Outline
1. Welcome to the Course
   a. Introduction of faculty and students
      i. Instructor Resume and Experience
   b. Overview of this course
   c. Hazards and Disasters
      i. Hazards: Part of the Natural Environment
      ii. Hazards and Disasters: Not the Same
      iii. The Many Costs of Disasters
      iv. Impacts of Climate Change on Natural Hazards
2. SECTION 1: Mitigation Overview
   a. Preparedness, Hazard Mitigation, and Climate Change Adaptation: An Overview
      i. The Emergency Management Cycle
      ii. Climate Change Adaptation
      iii. Hazard Mitigation and Adaptation Strategies
      iv. The Value of Hazard Mitigation and Preparedness
      v. Sustainability and Disaster Resilience
   b. IS-393.b Introduction to Hazard Mitigation
      i. Hazard Mitigation: Managing Risk

Approved 02/2020
ii. Supporting Community-Based Actions
iii. Identifying and Assessing Risks
iv. Development Techniques
v. Finding Opportunities for Pre- and Post-Disaster Mitigation

3. SECTION 2: Governmental Roles
   a. Role of the Federal Government in Disaster Management
      i. Involvement in Hazards Management
      ii. Evolution of Federal Emergency Management
      iii. Hazard Mitigation Programs
      iv. Reducing Risk
      v. Federal Disaster Assistance
   b. Mitigating Hazards at the State Level: Divergent Views and Outcomes
      i. State Emergency Management
      ii. Mitigation Planning
      iii. Climate Change Adaptation Planning
      iv. Mandates for Local Land Use Planning
      v. Regulation of Environmentally Sensitive Areas
      vi. Provision of Infrastructure
      vii. Building Codes
      viii. Regulation of Hazard Insurance
   c. Local Government Powers: Building Resilience from the Ground Up
      i. Local Authority: Exercising Police Power
      ii. Managing growth and development in Hazard areas
      iii. Local Government Structure
      iv. Making It Happen
   d. IS-2700: National Mitigation Framework, an Introduction

4. Section 3: Mitigation Planning
   a. Risk Assessment: Identifying Hazards and Assessing Vulnerability
      i. Purpose of Risk Assessment
      ii. Steps in Risk Assessment
   b. Hazard Mitigation Activities: Creating Strategies to Reduce Vulnerability
      i. Types of Mitigation Tools and Techniques
      ii. Engineering Projects
      iii. Stormwater Management
      iv. Prevention
      v. Property Protection
      vi. Natural Resource Protection
      vii. Public Information
      viii. Mitigation Funding
      ix. Strategies for Human-Made Hazards
      x. Local Mitigation Planning
   c. IS-318: Mitigation Planning for Local and Tribal Communities
      i. Defining Mitigation &
EMAP 1345
Course Syllabus

Mitigation Planning
ii. The Planning Process
iii. Assessing Risk
iv. Preparing the Mitigation Strategy
v. Implementing and Maintaining the Mitigation Plan
vi. Reviewing the Mitigation Plan
vii. Updating the Plan-Showing Progress Over Time

5. SECTION 4: Debris Management Overview
   a. IS-632.a: Introduction to Debris Operations
      i. Roles and Responsibilities for Debris Operations
      ii. Strategies and Procedures for Debris Removal

6. SECTION 5: Debris Management Planning
   a. IS-633 Debris Management Plan Development
      i. Debris management Plan Overview
      ii. Plan Development Process
      iii. Debris Management Team
      iv. Disaster Events/Assumptions
      v. Debris Operations Strategy
      vi. Private Property Debris Removal and Demolition
      vii. Contracted Services
      viii. Health and Safety
      ix. Environmental and Other Regulatory Requirements
      x. Public Information

Grade Scale

<table>
<thead>
<tr>
<th>Score Range</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>90 – 100</td>
<td>A</td>
</tr>
<tr>
<td>80 – 89</td>
<td>B</td>
</tr>
<tr>
<td>70 – 79</td>
<td>C</td>
</tr>
<tr>
<td>60 – 69</td>
<td>D</td>

<tr>
<td>0 – 59</td>
<td>F</td>
</tr>
</tbody>
</table>

Course Evaluation
Final grades will be calculated according to the following criteria:

1. Unit Tests 60%
2. Course Assignments 40%

Course Policies
1. No food, drinks, or use of tobacco products in class.
2. Computers, telephones, headphones, and any other electronic devices must be turned off while in class or used only with permission of the instructor.
3. Do not bring children to class.
4. If you wish to drop a course, the student is responsible for initiating and completing the drop process. If you stop coming to class and fail to drop the course, you will earn an ‘F’ in the course.
EMAP 1345
Course Syllabus

5. Additional class policies as defined by the individual course instructor.

Technical Requirements
The latest technical requirements, including hardware, compatible browsers, operating systems, software, Java, etc. can be found online at:
https://help.blackboard.com/Learn/Student/Getting_Started/Browser_Support/Browser_Checker  A functional broadband internet connection, such as DSL, cable, or WiFi is necessary to maximize the use of the online technology and resources.

Disabilities Statement
The Americans with Disabilities Act of 1992 and Section 504 of the Rehabilitation Act of 1973 are federal anti-discrimination statutes that provide comprehensive civil rights for persons with disabilities. Among other things, these statutes require that all students with documented disabilities be guaranteed a learning environment that provides for reasonable accommodations for their disabilities. If you believe you have a disability requiring an accommodation, please contact the Special Populations Coordinator at (409) 880-1737 or visit the office in Student Services, Cecil Beeson Building. You may also visit the online resource at http://www.lit.edu/depts/stuserv/special/defaults.aspx

Student Code of Conduct Statement
It is the responsibility of all registered Lamar Institute of Technology students to access, read, understand and abide by all published policies, regulations, and procedures listed in the LIT Catalog and Student Handbook. The LIT Catalog and Student Handbook may be accessed at www.lit.edu or obtained in print upon request at the Student Services Office. Please note that the online version of the LIT Catalog and Student Handbook supersedes all other versions of the same document

Starfish
LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT.
