COURSE DESCRIPTION

A study of the: research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. (Cross as EDUC 1100). This course is time-bound, structured, and completed totally online.

STARFISH

LIT utilizes an early alert system called Starfish. Throughout the semester, you may receive emails from Starfish regarding your course grades, attendance, or academic performance. Faculty members record student attendance, raise flags and kudos to express concern or give praise, and you can make an appointment with faculty and staff all through the Starfish home page. You can also login to Blackboard or MyLIT and click on the Starfish link to view academic alerts and detailed information. It is the responsibility of the student to pay attention to these emails and information in Starfish and consider taking the recommended actions. Starfish is used to help you be a successful student at LIT.

ADDITIONAL COURSE POLICIES/INFORMATION

1. A passing grade is 60. Try for a 70 at the lowest.
2. You must log in to Bb the first day of classes and start submitting assignments right away. Getting behind will create problems for you.
3. Attendance is calculated at the end of the semester. It is a major grade. It is based on the amount of work you complete.

4. Late assignments will not be accepted unless you experience a dire, documentable. Complete assignments and submit them on or before the due date. You may turn them in early. If you get behind, contact me by email. TLPartain@lit.edu
5. Should you have a concern about the work or your grades, contact the instructor. Don't air your personal issues to the rest of the class.
6. Students are expected to complete and submit their own work. Copying from the work of another student, or from any source either in print or online, is a serious offense and will result in the student receiving a zero for any plagiarized assignment. In addition, the student may also automatically fail the course. Furthermore, the students who try to obtain and use information from other students about a quiz or test may automatically fail the course. Students who willingly allow other students to copy their work or who provide information about quizzes or tests will be subjected to the same penalties as the students who receive the information.
7. Check Starfish for flags. I will contact you if I am concerned about your grades.
8. If at any time you see that I have recorded anything incorrectly, it is your responsibility to call it to my attention. Check your Blackboard grades weekly.
9. Read your LIT emails in Office 365 daily. I communicate often by email. Also read announcements when you get into Blackboard.
10. I hope to grade your papers within a week, but my timeliness depends on the number of emails and interruptions in my day. Read all instructions carefully so you don't have to email me.
11. If your grade is below 70 two weeks before the end of classes, see me. A grade below 60 is failing.
12. Please look for the answers to your questions in the modules, emails, and announcements before you send an email. Also look in the syllabus, this addendum, and the schedule.
